

Merk: **APart**

Model: REVAMP8250

## Omschrijving

8-channel bridgeable class D power amplifier, 8 x 250W, 4ohm.

This 8-channel bridgeable power amplifier is probably the most versatile class-D amplifier in the range. Combined with a pre-amplifier or matrix the REVAMP8250 can be used to create 8 zones in mono, 4 zones in stereo, even 4 bridged mono or 2 bridged stereo systems can be created. The amplifier has an intelligent variable speed cooling fan built-in to keep the unit cool at all times. When installing the REVAMP8250, a handy input overload LED indicator on the rear and amplifier clip indicator on the front will guarantee a fast and hassle-free installation. Due to the amount of channels, limited amplifiers are needed in your project. This will save money and space, making it the ideal choice for your install.
